This is Kaiser's update regarding the possible relocation of the subject well.

Kaiser has worked with the appropriate parties to seek a viable alternative surface location for the well. Unfortunately, all conceivable alternatives have been exhausted without success. Consequently, the only viable surface location for the subject well is 1-28. As a result, Kaiser requests that the Board make a determination of the Review Applications. Kaiser looks forward to receiving the Board's disposition when rendered.

Yours truly,
