

The role of the Field Marshal is to determine if fields are playable for each game.

- 1.5-2 hours before game time on your specified day, check the playfields to determine the playability.
- If the field is not playable, work with your Age Group Coordinator to see if relocating the games to another field is a possibility.

A note about cancellations:

Spring in Calgary brings some less than ideal conditions for outdoor soccer. At the same time, we want to give the opportunity to play as much as possible. We would cancel for snow that sticks, heavy rain, dangerous winds, etc. We generally wouldn't cancel for a chilly day. We would cancel (or move to another booked field) for an excessively wet/dangerous field. Use your best judgement. We also tell parents in the confirmation letter that if they feel that conditions are not safe for their family, don't play.
